PROFILE

Full Stack Software Engineer with over 2+ years of experience in frontend and backend development, REST API integration, database management, and Agile methodologies, gained through an internship at SLT Mobitel PLC and ongoing freelance work. Currently working as a Freelance Software Engineer, developing and delivering custom web and business applications based on client requirements. Skilled in React, Next.js, NestJS, Node.js, Laravel, PostgreSQL, MySQL, MongoDB, and Firebase, with hands-on experience in application testing, debugging, authentication, and deployment, focused on building clean, maintainable, and user-friendly software solutions.

SKILLS

Languages	JavaScript, TypeScript, Java, PHP, Python
Frontend	React, Next.js, Angular, Redux Saga, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend	Node.js, Express.js, NestJS, Laravel
Databases	PostgreSQL, MySQL, MongoDB, Firebase
Practices	REST API Integration, Agile Development, Application Testing, Debugging, Troubleshooting
Auth & Cloud	Azure AD, Google OAuth, Supabase, TiDB Cloud
Tools	Git, GitHub, Bitbucket, Postman, Vercel, Heroku, Figma, Netlify
Soft Skills	Teamwork, Cross-Functional Collaboration, Problem-Solving, Time Management, Communication, Adaptability

PROFESSIONAL EXPERIENCE

Freelance Software Developer — Capital Engineering (Construction Website) Jan 2026 – Aug 2026

- Built a responsive corporate website with an admin panel for managing projects, blogs, and website content.
- Implemented secure authentication and dynamic content management features using Google OAuth.
- Added a client requirement submission feature that automatically generates an estimated project cost, streamlining the quotation process for new client requests.

Technologies: Next.js, Laravel, MySQL, Tailwind CSS, Google OAuth

Freelance Software Developer — Auto AC Service (Appointment Management System) Ongoing

- Delivered an online appointment booking and management system with an admin panel for managing appointments and customer information.
- Integrated Google Calendar so that each new booking is automatically saved and triggers an automated reminder, reducing missed appointments.

Technologies: Next.js, Laravel, Firebase, Tailwind CSS, Google OAuth

Software Engineer Intern — SLT Mobitel PLC Mar 2025 – Sep 2025

- Rebuilt and enhanced the internal sDesk incident-management application, used by more than 100+ employees daily, using React and NestJS.
- Reduced existing application bugs and streamlined ticket resolution time through targeted debugging and code improvements.
- Developed frontend features, integrated REST APIs, and performed PostgreSQL database operations.
- Conducted application testing, debugging, and troubleshooting, collaborating in an Agile team using Git, GitHub, and Bitbucket.

Technologies: React, NestJS, PostgreSQL, Tailwind CSS, Git, GitHub, Bitbucket

Software Developer — Ranweli Enterprises Jun 2024 – Jun 2025

- Engineered and deployed a responsive stock-management business application using React.js, Firebase, Bootstrap, and Vercel.
- Significantly reduced time wastage and staffing costs by streamlining manual inventory processes, improving overall operational efficiency for the client.
- Established inventory-management features and integrated EmailJS and SMS Gateway services to support daily business operations.
- Used GitHub for version control throughout development.

Technologies: React.js, Firebase, Bootstrap, Tailwind CSS, Vercel, EmailJS, SMS Gateway

EDUCATION

BSc (Hons) in Computing and Information Systems 2022 – 2026 · Sabaragamuwa University of Sri Lanka

G.C.E. (A/L) Examination — Physical Science Stream 2020 · Kegala Vidyalaya, Kegalle
